PROFILE

Software developer at Technman Consulting building full-stack products across interfaces, APIs, business workflows, background processing, and cloud delivery.

EXPERIENCE

Software Developer | Technman Consulting

December 2024 - Present

- Build React dashboards alongside backend services and APIs.
- Contribute to HRMS workflows for attendance, leave, employee records, and payroll.
- Work with salary structures, payslips, resignation, and Full & Final processes.
- Support production delivery using AWS, Docker, Nginx, SSL, and deployment workflows.
- Build scheduled email and reporting workflows with Celery and Redis.

SELECTED PROJECTS

HRMS / HRATS | React, Django REST, PostgreSQL, Celery, Redis, AWS

People operations platform covering geofenced attendance, payroll, leave, resignation, and scheduled HR communication.

TNM Tracker | Python, FastAPI, PostgreSQL, AWS S3, React

Employee activity platform connecting a desktop agent, service API, cloud storage, and dashboard.

AI Resume Analyzer | React, Node.js, Django, Python, PostgreSQL, LLMs

Resume analysis application exploring language-model-driven candidate feedback.

EDUCATION

Bachelor of Computer Applications (Honours) | SVGU

2023 - 2027
